

## LCDA630P driver

# 380V Large Power Servo Kit

Support MODBUS, customizable CANopen & EtherCAT communication protocol, which can achieve multi-sero drive networking operation with the uppercomputer;Adapt to 130/180/200/250 series servo motor.

**Pulse**

## 130/180/200/250 Series 380V Servo Motor
